

Approval Matrix

Nexus Global Solutions Ltd. | Group Finance & Governance | All Departments

Policy ID: GOV-POL-003	Category: Governance / Finance	Effective: 01 March 2026	Review Date: 28 February 2027	Version: v2.1
----------------------------------	---	------------------------------------	---	----------------------

1. Introduction

This Approval Matrix ('the Matrix') defines the authority levels required to commit Nexus Global Solutions Ltd. ('the Company') to financial obligations, strategic decisions, contractual arrangements, and other significant actions. It ensures appropriate segregation of duties, accountability, and governance across all organisational levels.

The Matrix must be read in conjunction with the Procurement Policy (SCM-POL-002), the Travel & Expenses Policy (FIN-POL-001), the Delegated Financial Authority (DFA) schedule, and the Group Treasury Policy.

2. Organisational Hierarchy & Roles

Level	Role	Scope
L1	Team Member / Individual Contributor	Staff performing day-to-day operational activities with no direct spend authority.
L2	Line Manager / Team Lead	First-line management with limited spend authority for team operational needs.
L3	Department Head / Senior Manager	Responsible for a functional area; manages budget and vendor relationships.
L4	VP / Director	Senior leader with P&L; responsibility; approves significant departmental spend.
L5	Chief Officer (CFO, CTO, COO, CPO, CMO)	Executive leadership; approves cross-functional and high-value commitments.
L6	CEO	Ultimate operational authority; approves largest and most strategic commitments.
L7	Board / Audit Committee	Non-executive oversight; ratifies decisions above CEO authority or of strategic significance.

3. Expenditure Authority Matrix

The following table sets out approval requirements by category and value. **A** = Approve, **N** = Notify only, **R** = Recommend, — = Not involved. Dual control required where two levels are marked A.

N Notify	This level is informed of the decision for awareness and reporting purposes.
— Not involved	This level has no required role in this decision type.

5. General Rules & Conditions

- **Budget confirmation first:** All expenditure requires confirmation that budget exists before the approval process is initiated. Unbudgeted items require one additional approval level above the standard threshold.
- **Aggregation principle:** Related items may not be split to fall below a threshold. Total project or contract value governs the applicable tier.
- **No self-approval:** An individual may not approve their own expense, contract, or purchase. Dual-control applies wherever two A's appear in the same row.
- **Delegated authority:** Authority may be temporarily delegated in writing during leave or extended absence. The delegate may not further sub-delegate.
- **Retrospective approval:** Prohibited except in documented emergencies. Retroactive approval requires one level above the standard approver and a written explanation lodged with Finance within 5 business days.
- **Conflicts of interest:** Individuals with a conflict must recuse themselves and escalate to the next level (see Procurement Policy, Section 8).
- **Digital signatures:** Electronic approval via the ERP/workflow system constitutes a valid approval record for audit purposes.

- **Audit rights:** Internal Audit and external auditors retain the right to inspect any approval record at any time.
-

6. Delegated Authority Register

The Finance team maintains a live Delegated Authority Register listing all current delegations. Each entry must include:

- Delegator name and level
- Delegate name and level
- Scope of delegation (categories, value limits)
- Effective and expiry dates
- Written authorisation signed by the delegator and countersigned by HR

Delegations exceeding 30 days require CFO notification. No delegation may exceed the authority of the delegator.

7. Matrix Governance & Review

Role	Responsibility
CFO	Matrix owner; final arbitration on interpretation disputes
Head of Finance Governance	Quarterly review; amendment proposals; training
Legal	Review of contractual thresholds; regulatory updates
HR	People-related thresholds; delegation records
Internal Audit	Semi-annual compliance testing; report to Audit Committee
Board / Audit Committee	Annual ratification of material changes
